

THE SOUTHEAST FLORIDA ASSOCIATION FOR PSYCHOANALYTIC PSYCHOLOGY

A LOCAL CHAPTER OF DIVISION 39 (PSYCHOANALYSIS) OF THE AMERICAN PSYCHOLOGICAL ASSOCIATION

YOU ARE CORDIALLY INVITED TO ATTEND OUR UPCOMING SPECIAL SYMPOSIUM:

The History or Psychopharmacology

PRESENTED BY ALDO MORALES, M.D.

WHEN:	SUNDAY, OCTOBER 12, 2014
TIME:	9:00am to 12:30pm, followed by brunch <i>(registration begins at 8:45am)</i>
WHERE:	Home of Barbara Lurie, Ph.D., LMFT Delaire Country Club 4700 Cherry Laurel Lane Delray Beach, FL33445

PRESENTATION DESCRIPTION: (*INSTRUCTIONAL LEVEL: INTERMEDIATE*)

The advent of today's psychopharmacological agents helped to convert psychiatry from a medical specialty that was based on psychotherapy to one that is based on biochemistry. This program traces the evolution of modern biological psychiatry in an engaging tour de force that highlights the serendipitous nature of our scientific advances. The topic, which is presented much like a documentary, is intended for the scientist and layman alike. It is useful in helping us to understand how we've arrived at our current standard of medical practice while underscoring that while we know more than ever before, we still know very little about the intricacies of how the brain functions.

PRESENTER:

Aldo Morales, M.D. was born in Havana, Cuba. His interest in psychopharmacology stems from his undergraduate degree in Pharmacy. After completing medical school he did a four year residency in Psychiatry at UMDNJ-Robert Wood Johnson Medical School. He is Board certified in Psychiatry and Addiction Psychiatry. He is certified by ASAM. He is a charter member of the American Board of Addiction Medicine. Dr. Morales is on the adjunct faculty at FIU, Herbert Wertheim College of Medicine as well as FAU, Charles E. Schmidt College of Medicine. He is an active voice within the medical community in promoting the message that addiction is a treatable chronic medical condition and not a moral failing. Dr. Morales is a consultant for various State agencies and was a consultant for Major League Baseball.

OBJECTIVES:

After attending this intermediate-level program in full, participants will be able to:

- (1) Describe the manner in which information is transmitted in the nervous system;
- (2) Give examples of the serendipitous nature of our discoveries of central nervous system function;
- (3) Locate the neuroanatomical structures involved in psychiatric illness;
- (4) Describe how our current psychiatric drugs work;
- (5) Discuss the evolution of our present pharmaceutical industry.

REGISTRATION: *(see fees at bottom of page)*

- To pay by check or cash, RSVP by 10/9/14 at office@sefapp.org and pay at the door.
- To register by credit card, visit our website at www.sefapp.org and click on "Events".

LOCATION AND DIRECTIONS:

NOTE: THIS EVENT IS IN DR. LURIE'S HOME, NOT AT THE COUNTRY CLUB.

DIRECTIONS: From I-95 take the Linton Blvd. exit and head west for two miles. Turn left at Military Trail and continue south on Military Trail for approximately one mile until you reach Live Oak Boulevard. At Live Oak Boulevard, turn left into Delaire Country Club. After you pass through the gate, take your first left onto Cherry Laurel Lane. Follow road as it curves to the left. Dr. Lurie's house is the third one on the left.

CONTINUING EDUCATION CREDITS:

SEFAPP is an approved continuing education provider by the Agency for Health Care Administration of the Florida Board of Clinical Social Work, Marriage and Family Therapy and Mental Health Counseling (BAP #587 EXP. 3/2015). **This program, when attended in its entirety, is offered for 3 CE credits.** Division 39 is approved by the American Psychological Association to sponsor continuing education for psychologists. Division 39 maintains responsibility for this program and its content. Division 39 is committed to accessibility and non-discrimination in its continuing education activities. SEFAPP and Division 39 are committed to conducting all activities in conformity with the American Psychological Association's Ethical Principles for Psychologists. Participants are asked to be aware of the need for privacy and confidentiality throughout the program. If participants have special needs, we will attempt to accommodate them. Please address questions, concerns and any complaints to Lisa Schulman, Ph.D. at (561) 622-7722.

The risks, utility and limitations of this treatment will be covered during the talk. The presenters are not receiving commercial support, nor representing any commercial interest or recommending any commercial product in relation to their presentation.
